

Diskeeper 1.0 Compatibility In Windows NT 3.51 (136038)

The information in this article applies to:

- Microsoft Windows NT Workstation 3.51
 - Microsoft Windows NT Server 3.51
-

This article was previously published under Q136038

Diskeeper 1.0, a third-party on-line disk Defragmentor for Windows NT, does not work under Windows NT 3.51. It does not have the capability to support the newer features of the Windows NT file system (NTFS) in 3.51 nor does it support the new file and directory compression feature.

A Windows NT 3.51 compatible version of Diskeeper, version 1.01 is available on Executive Software's on-line services. The incremental release (DK101I.EXE) is available free to all registered users. Executive Software's on-line services:

CompuServe: Windows Utility Vendor A Forum (WINUTA), Library 13

FTP Site: ftp.netcom.com
/pub/ex/execsw

A newer release of the Diskeeper upgrade for Windows NT 3.51 has been released. You can obtain this release on the following WEB site on the Internet:

<http://www.execsoft.com/download/>

If you cannot download the incremental release, you can order the software on disk directly from Executive Software for \$9.95, the cost of shipping and handling.

Executive Software
701 North Brand Blvd., 6th Floor
Glendale, California, USA 91203-1242

Technical Support: (818) 547-2050
FAX: (818) 545-8801

This upgrade is not backwards compatible with Windows NT 3.5.

Diskeeper is manufactured by Executive Software, a vendor independent of Microsoft; we make no warranty, implied or otherwise, regarding this product's performance or reliability.

Modification Type: Major
